

Croquetwest GC State Open Mixed Doubles

Main Venue: Forrest Park

Entires: a maximum of 24 players (or pairs for doubles) may compete if four lawns are available, 18 if three lawns, and 12 if two lawns. These numbers 'overload' lawns by 50%, but are considered a reasonable compromise between the negative of sitting out and the positive of allowing greater number of competitors.

Notes:

* If entry numbers are greater than maximums detailed above, then, unless a solution can be engineered, priority is to be given to lowest handicap entries.

* A secondary venue may be used depending on entries.

Format: Play will commence with seeded block play. Depending on entries, the intention is to have the top 4 or 8 players qualify for the finals.

All games will be untimed 13 point games. Handicap cards will be used.

Hoops: To be set at 3 11/16"

Warm Ups: Courts open for practice from approximately 7.30 am each day. A three minute warmup will be also allowed for players who are playing on a new court for the first time each day and for players who have had a break between games of 30 minutes or more (their opponents will also be allowed this warmup).
